VIA REGULAR MAIL AND CERTIFIED MAIL, RETURN RECEIPT REQUESTED

Ms. Deborah Joyce
Progressive Energy Consultants, LLC
1080 Kapp Drive
Clearwater, FL 33765

Dear Ms. Joyce:

The Delaware Public Service Commission ("Commission") has been informed that Progressive Energy Consultants, LLC (the "Company") has listed Delaware on its website under markets served for electricity brokerage services. Staff believes this leads consumers and others to believe that the Company is authorized to provide services in Delaware. Delaware law requires that prior to doing business in Delaware, an electric supplier must obtain a certificate from the Commission in order to sell electric supply service to or arrange the purchase of electric supply service on behalf of retail electric customers. See 26 *Del. C.* §1012. While an application has been filed by the Company, Staff has not completed its review nor has the Commission approved the application for certification.

Electric Supplier certification rules are set forth in the Commission's Rules at 26 *Del. Admin. C.* §3001 and are posted at the Commission's website at <http://regulations.delaware.gov/AdminCode/title26/3000/3001.shtml#TopOfPage>. I am also enclosing a copy of the Rules for your reference.

In the meantime, Progressive Energy Consultants, LLC must remove Delaware from the list of markets served for electricity brokerage services on the Company's website within the next 7 business days, and not post such information on its website until the company has received an electric supplier certificate from the Commission. If the Company fails to comply with Delaware law and the Commission's Rules, your company may be subject to a civil penalty of up to \$5,000 for each violation per 26 *Del. C.* §1019(a).

Ms. Deborah Joyce

If you have any questions about obtaining an electric supplier certificate in the State of Delaware, please do not hesitate to contact me at (302) 736-7534 or by email at toni.loper@state.de.us.

Sincerely,

Toni Loper
Public Utility Analyst II
